Summary

As a Junior Front-End Developer with a passion for creating user-friendly web experiences, I am proficient in HTML, CSS, and JavaScript. I also have a strong understanding of front-end frameworks, particularly React.js. I am hardworking and dedicated. I am seeking opportunities to contribute to innovative projects and further enhance my technical expertise.

SKILS

- **Expertise:** HTML | CSS | Bootstrap | Tailwind | React.js
- **Comfortable:** JavaScript | Express.js | Firebase | MongoDB
- **Familiar:** Node.js
- **Tools:** Git | Vercel | Netlify | npm | VS Code | Dev Tools

PROJECTS

Photography School   Live Site | Client Code | Server Code
- Build a web application with separate admin sections for students, instructors, and administrators, including e-commerce functionality
- User-friendly interface, dynamic UI with React, real-time data sync with Firebase and MongoDB, backend logic with Express.js and Node.js, e-commerce capabilities.
- Design admin sections for different roles, integrate Firebase and MongoDB for data storage, use HTML Tailwind CSS, and React for frontend, implement Express.js and Node.js for backend logic, and enable e-commerce functionality

Toy cars   Live Site | Client Code | Server Code
- Create a simple web app for a toy cars store using HTML, Tailwind CSS, React, Express, Firebase, and Node.js.
- Key Features: User-friendly interface, toy car catalog display, shopping cart functionality with Firebase, server-side logic with Express and Node.js.
- Develop frontend using HTML, Tailwind CSS, and React; integrate Firebase for data storage; implement Express and Node.js for server-side logic and API handling; test thoroughly and deploy the app for users to access.

Cookiteers   Live Site | Client Code | Server Code
- Develop a simple web app called "Cookiteers" using HTML, Tailwind CSS, React, Express, Firebase, and Node.js for recipe sharing.
- User-friendly interface, user accounts, recipe sharing, search functionality, Firebase for data storage, Express and Node.js for server-side logic.
- Design frontend with HTML, Tailwind CSS, and React; utilize Firebase for data storage; implement Express and Node.js for server-side logic; thoroughly test and deploy the app.

EDUCATION

BSc in Computer Science Engineering   2018 – 2022
    Dhaka International University.
    Dhaka, Bangladesh.

Diploma in Computer Technology   2013 - 2017
    Shariatpur Polytechnic Institute.
    Shariatpur, Bangladesh.
